This Chapter is read...
...from RIGHT to LEFT

Actually, this sketch is from the 2013 autographed edition (I drew some sketches for the editing department). Afterwards, I decided that I should use another sketch. So this sketch is used for the volume (laugh). But because the sketch was for the autographing session, it's only half a page. After we made the sketch bigger, it looked like two guys lying beside Lei An. And so we decided to make Shi Le peek from outside (another laugh). Although it looked a little perverted, that kind of thing suited his character (heh).

Then, we wanted the sun to shine in through the window. But with that kind of setting, the sunlight wouldn't be able to shine in. The lighting should match the setting, so it became somewhat dim. In the end, after the changes, everyone took a look. It had a fantasy-like atmosphere with a bluish purple tone, showing Lei An's confusion about whether this was a dream or real life.

Wa... wait!
